LU SAFE

**INTEGRATED INDUSTRIAL SOLUTIONS
(ENGINEERING, SAFETY, TRAINING)**

**WE ARE A PART
OF DEVELOPMENT**

S=STM

**STAKEHOLDERS =
SHAREHOLDERS**

WHO WE ARE

LU SAFE LLC is a multidisciplinary company delivering innovative and high-impact solutions in industrial safety, engineering, technical training, and specialized equipment services.

Founded in Azerbaijan and headquartered in the USA, **LU SAFE** operates at the intersection of practical field expertise, international compliance standards, and strategic innovation - serving clients across the Caspian region, the Middle East, and expanding toward the European market via its registered office in Lisbon, Portugal.

Our team of safety professionals, field technicians, engineers, and consultants are committed to advancing safe work environments, operational efficiency, and sustainability goals for government, industrial, and corporate partners.

TOGETHER WE GROW

01

Through our proprietary S= S (Stakeholders =Shareholders) partnership model, LU SAFE creates value-driven collaborations and shares success with each partner we serve.

02

Certified industrial training programs in renewable energy, sustainability, AI-driven optimization, confined space, fire safety, rope access, ISO systems, and more.

03

High-quality safety equipment and custom-fabricated stainless-steel solutions. Technical field services including rope access, scaffolding, electrical, and inspection support.

OUR PARTNERS:

OUR CORE SOLUTIONS

Engineering & Technical Services:

- Innovative and Sustainable Safety Engineering Solutions
- Safety Equipment Supply and Installation
- Offshore and Onshore Rope Access and Confined Space Works
- Power Systems Cleaning, Inspection, and Maintenance
- AI-driven Industrial Engineering Optimization

Branded & Custom Products:

- Customized Personal Protective Equipment (CPPE)
- Custom-made Stainless-Steel Products (flag poles, statues, guardrails, handrails)
- Event Branding and Signage Solutions (billboards, totems, banners)

Business Services & Training:

- Business Consultancy and Industrial Trainings
- Strategic Partnership Networking under the 'S = S' model

CERTIFIED HSE, SUSTAINABILITY & TECHNICAL TRAININGS

LU SAFE LLC offers internationally aligned training programs designed for clients in oil & gas, construction, petrochemicals, energy, and public sector fields. Our programs combine practical field readiness with strategic compliance, risk management, and sustainability.

Courses are delivered by certified professionals, with options for on-site, classroom, or remote delivery, **in Azerbaijani, English, or bilingual format.**

CERTIFIED HSE, SUSTAINABILITY & TECHNICAL TRAININGS

Professional Development & Awareness Programs

Sustainability, ESG & Energy Transition:

- Sustainable Safety & HSE Alignment
- ISO 14001: Environmental Management Systems
- Risk-Based Sustainability Management
- Energy Transition & Decarbonization Strategy
- Carbon Footprint Reduction & Optimization
- Renewable Energy Safety (solar, wind, hybrid systems)

Government-Licensed & Regulated Training Programs:

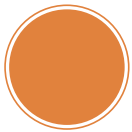

- Confined Space Entry, Rescue & Inert Entry
- Rope Access Techniques & Rope Rescue
- Fire Safety & Industrial Emergency Response
- Electrical Safety – Group Level 4 & Group Level 5
- Process Safety Management (PSM)
- Emergency Preparedness & Scenario-Based Risk Planning

CERTIFIED HSE, SUSTAINABILITY & TECHNICAL TRAININGS

ISO Management Systems & Quality:

- ISO 9001: Quality Management Systems
- ISO 9004: Continuous Quality Development
- ISO 9001: Lead Auditor Certification
- Risk-Based Thinking in ISO
- Contractor & Supplier Safety Management

General Industrial Safety Awareness:

- Electrical Safety Awareness
- Hydraulic & Pressurized Systems
- Fall Prevention & Working at Height
- Safe Work at Construction & Energy Facilities

Psychological Safety & Leadership:

- ISO 45003: Psychological Health & Safety
- Safety Culture Development & Supervisor Coaching
- Safety Leadership & Behavioral-Based Safety (BBS)

PERSONAL PROTECTIVE EQUIPMENT (PPE) SOLUTIONS

At **LU SAFE**, we understand that safeguarding your workforce is paramount. Our collection of **Personal Protective Equipment (PPE)** ensures that your employees are shielded from potential hazards in the oil and gas environment. From flame-resistant clothing to eye protection and respiratory gear, we offer a diverse range of PPE that adheres to international safety standards.

Our products **not only prioritize safety but also provide comfort**, allowing your team to carry out their tasks with confidence

OUR PPE PRODUCTS INCLUDE

- ATEX clothing, including flame-retardant coveralls
- Safety eyewear and goggles
- Respiratory masks and breathing apparatus
- Ear protection gear
- Hand and foot protection solutions etc.

Our Electrical Safety Tools include:

- Voltage detectors and testers
- Insulated gloves and mats
- Grounding and bonding equipment
- Arc flash protection gear

INDUSTRIAL & ENGINEERING FIELD SERVICES

At **LU SAFE**, we recognize that precision, reliability, and safety are crucial in the Industrial & Engineering sectors. Our comprehensive services are designed to support your operations with expert solutions tailored to meet the demands of complex environments. From equipment maintenance and inspection to on-site technical support and system integration, we deliver services that align with international industry standards.

Our commitment goes beyond compliance — we ensure that your team can operate efficiently and confidently, backed by solutions that prioritize both safety and performance.

ROPE ACCESS AND ALPINIST SERVICES

Elevate your projects with LU SAFE's Rope Access/Alpinism services. From high-rise window cleaning to intricate mechanical installations, our certified specialists ensure safety and efficiency at every elevation. With a trusted partnership and customized solutions, LU SAFE stands as your go-to for quality and reliability in every task.

- Window and facade washing and cleaning.
- Glass repair and replacement of hi-rise buildings.
- Piping and mechanical works using rope access systems.
- Installation of all type of flag poles, banners, billboards, lights.
- Electrical installation works at height.
- Assembly and disassembly work on telecommunication towers.
- Reactor cleaning and catalyst loading activities.
- Emergency rescue team provisions and rescue using alpinist methods.

CONFINED SPACE OPERATIONS

LU SAFE offers specialized support for confined space work, including certified personnel, advanced atmospheric monitoring equipment, and tailored safety solutions. Our team ensures that every operation complies with international safety standards, minimizing risks and enhancing operational efficiency.

With LU SAFE, you can trust that your confined space operations are handled with the highest level of safety and professionalism.

CERTIFIED ELECTRICAL SAFETY INSPECTIONS

At LU SAFE, we provide certified electrical safety inspections, diagnostics, technical assessments, cleaning, and maintenance for high-voltage and industrial systems.

We deliver reliable solutions that reduce downtime, prevent hazards, and extend equipment lifespan — all while prioritizing the safety of your workforce and facility.

SCAFFOLDING SUPPLY, ERECTION, AND DISMANTLING

Scaffolding operations at LU SAFE are built on precision, safety, and reliability.

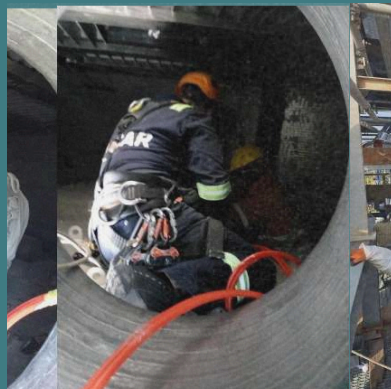

We provide full-service support, including the supply, erection, and dismantling of scaffolding systems tailored to industrial and engineering needs. We also apply full-body harnesses, fall arrest systems, anchoring and lifeline solutions

FIELD-LEVEL TECHNICAL SUPPORT AND INSPECTION SERVICES

At LU SAFE, we specialize in providing field-level technical support and inspection services during maintenance shutdowns, equipment overhauls, and operations in hazardous areas such as Zone 0, Zone 1, and ATEX-classified environments.

Our trained professionals are equipped to operate in high-risk zones, ensuring strict adherence to safety protocols and minimizing downtime.

BRANDING, SIGNAGE & SAFETY INFRASTRUCTURE

At **LU SAFE**, our Branding, Signage & Safety Infrastructure services are designed to enhance both safety compliance and visual communication across industrial, construction, and public environments.

We offer a full spectrum of solutions, including the supply and installation of certified safety signage for plants, industrial zones, and construction sites. Our team also specializes in the design and fabrication of physical safety elements such as **barriers, lockout-tagout panels, hazard boards, and communication systems tailored to site-specific needs.**

BRANDING, SIGNAGE & SAFETY INFRASTRUCTURE

- Certified safety signage for industrial sites, plants, construction zones, and public areas
- Custom barriers, pylons, totems, lockout-tagout panels, and hazard boards
- First aid kits, incident stations, and safety messaging setups
- Event branding: banners, towers, wall boards, and more
- Aluminum frames, stages, and stainless-steel structures (e.g., flagpoles, decor)
- Full-service event support for expos, exhibitions, and high-level delegations (e.g., COP29)

WHY CHOOSE LU SAFE FOR SAFETY SIGNS?

- High visibility and durable materials for long-lasting effectiveness.
- Compliance with international safety standards and regulations.
- Customization options to reflect your project's unique needs.
- Expert guidance in selecting the right signs for your facility.
- Enhance safety awareness and mitigate risks
